INTERNO 9

Immagina un complesso residenziale con uno stile moderno, minimalista, dove lo sguardo incontra strutture lineari, armonie di volumi, contrasti materici. L'eleganza della semplicità si amalgama all'irriverenza indomita del metallo che, con affascinante rudezza, si fa protagonista del paesaggio.

Imagine a contemporary residential complex with a minimalist feel, where the viewer's gaze is drawn to linear structures, harmonious forms, and contrasting textures. Stylish simplicity is paired with the untamed irreverence of weathering steel, which - with a stunning coarseness - becomes a key feature of the landscape.

5

Esterno Complesso residenziale:
lastre effetto carton in
parete, posa pulita
Targhetta dei numeri interni
da realizzare a rilievo in ferro
Scelta verde sempreverde
con forme pulite

Exterior, residential complex:
weathering steel effects slabs
on walls, minimalist feel
Plates showing apartment numbers
to be made in iron with
embossed design.
Greenery: evergreens with clean lines

Rust 60x120 - Rust Mix Sizes 60x120 - Dune 60x120

Toni caldi e chiari per il pavimento
del living, in contrasto con gli
arredi scuri e la struttura camino.
Prevedere base in marmo per
il camino.

Warm, pale tones for the living room floor
provide a stylish contrast with the dark
furnishing and the fireplace feature.
Include marble hearth.

Outdoor: Rust 60x120 - Rust Mix Sizes 60x120 - Unika Grey Bocc. 60x60
Indoor: Mosaico Losanga Rust 30x60 - Rust Lapp. 60x120 / 60x60

Rust Lapp. 60x120 / 60x60

17

Pearl 30x120 / 60x120 - Dolphin Grey 20x120 - Fascia Essenze 5x30 - Silver 60x60

Mixare legno a materiali ceramici chiari
Abbinare sanitari con linee morbide
in marmo scuro
Miscelatori in ottone

Team wood with pale ceramic tiling
Combine with dark marble bathroom
furnishings with soft lines
Brass mixer taps

Pearl 60x120

Silver 60x60

Per showroom, al 1^o piano utilizzare lastre
effetto corten vero a pavimento e parete
muretto 3D

Parete espositiva: posa multiformato
d'effetto con stesse lastre in colorazione più calda

Posa marmo ceramico nella parte scale
e nella parete espositiva

Mensole ad L in metallo color ottone
retroilluminata

For the showroom, on the first floor,
use black weathering steel-effect slabs on the floor
and 3D dwarf wall effect on the walls

Display wall: high-impact multi-size
design with the same slabs in warmer tones

Fit ceramic marble tiles on the walls of the

stairway and on the display wall

Brass-coloured metal L-shaped shelves
with back lighting

Mud 60x120 - Mud Mix Sizes 60x120 - Sensi Calacatta Select Sablè 60x120 / 30x120

* Decorazione realizzata in legno trattato e garantito per l'utilizzo nell'ambiente bagno. Il tipo di verniciatura fa in modo che non teme l'umidità, rendendo possibile la fugatura con normali stucchi ceramici epossidici. Dopo la posa in opera e la stuccatura, pulire il prima possibile con acqua avendo cura di asportare ogni residuo di stucco.

* Decorative tile made in treated wood, guaranteed also for use in the bathroom. This kind of varnish protects from humidity, therefore it's possible filling with standard epossidic filler for ceramics. After placing and filling, please clean with water as soon as possible, carefully removing every mark left by the filler.

L'unità minima di vendita per tutti gli articoli (fondi, decori e pezzi speciali) è la scatola completa. / The minimum sales quantity for all items (plain tiles, decorations and special trims) is one full box.

Pezzi speciali e decori per effetto delle lavorazioni, possono presentare variazioni di tonalità. / Due to working process special trims and decors, may show variation in tonality.

LA GARANZIA DI UN FUTURO GREEN BUILDING PASSA ATTRAVERSO LA QUALITÀ ECO-SOSTENIBILE.
Da azienda sensibile alle tematiche ambientali, ABK si è sempre preoccupata di mantenere i parametri che regolano i processi industriali al di sotto delle normative, composto al 40% minimo da materiale riciclato recuperato da altre lavorazioni industriali. ECO-BODY è ufficialmente certificato per recepire gli standard LEED (Leadership in Energy and Environmental Design) il sistema di rating internazionale delle performance ambientali che in edilizia promuove la progettazione sostenibile riguardante l'intero edificio per ridurne l'impatto ambientale per tutto il suo ciclo di vita. Tutte le collezioni ABK che utilizzano questo speciale impasto certificato, riportano nella pagina riepilogativa l'esclusivo logo ECO-BODY, che oltre ad indicare il 40% minimo di materiale riciclato, ne evidenziano la compatibilità col sistema di crediti LEED.

ABK è membro di GREEN BUILDING COUNCIL ITALIA, l'associazione italiana dei leader che operano per trasformare il mercato dell'edilizia verso la sostenibilità ambientale e per costruire comunità vivibili. I soci GBC Italia promuovono la responsabilità ambientale, economica e sociale innovando il modo in cui gli edifici sono progettati, realizzati e utilizzati.

THE FUTURE OF GREEN BUILDING IS GUARANTEED BY ECO-SUSTAINABLE QUALITY.
As a company that cares deeply about environmental issues, ABK has always endeavoured to keep its parameters below the legal limits for manufacturing processes, utilising a minimum of 40% recycled material recovered from other industrial processes. ECO-BODY is officially certified for access to LEED (Leadership in Energy and Environmental Design) credits, the international rating system for environmental performance which promotes sustainable design in the construction industry with a view to reducing the overall environmental impact of buildings over their entire life cycle.

All ABK collections made with this special certified mix are identified in the contents page with the exclusive ECO-BODY logo, which in addition to indicating a minimum of 40% recycled material, underlines the product's compatibility with the LEED credits system. ABK is a member of Italian GREEN BUILDING COUNCIL, the association of top players working to transform the building market towards sustainability and to build liveable communities. GBC Italian members promote environmental, economic and social responsibility, innovating buildings in terms of engineering, design, manufacturing and use.

The system is based on credits awarded for each of the sustainability requirements met by the building. The sum of the credits determines the level of certification obtained. Although LEED certification is awarded to buildings and not single products, ceramic tile products contribute to the achievement of LEED credits.
