# TERRA by DG

## NATURAL BEAUTY

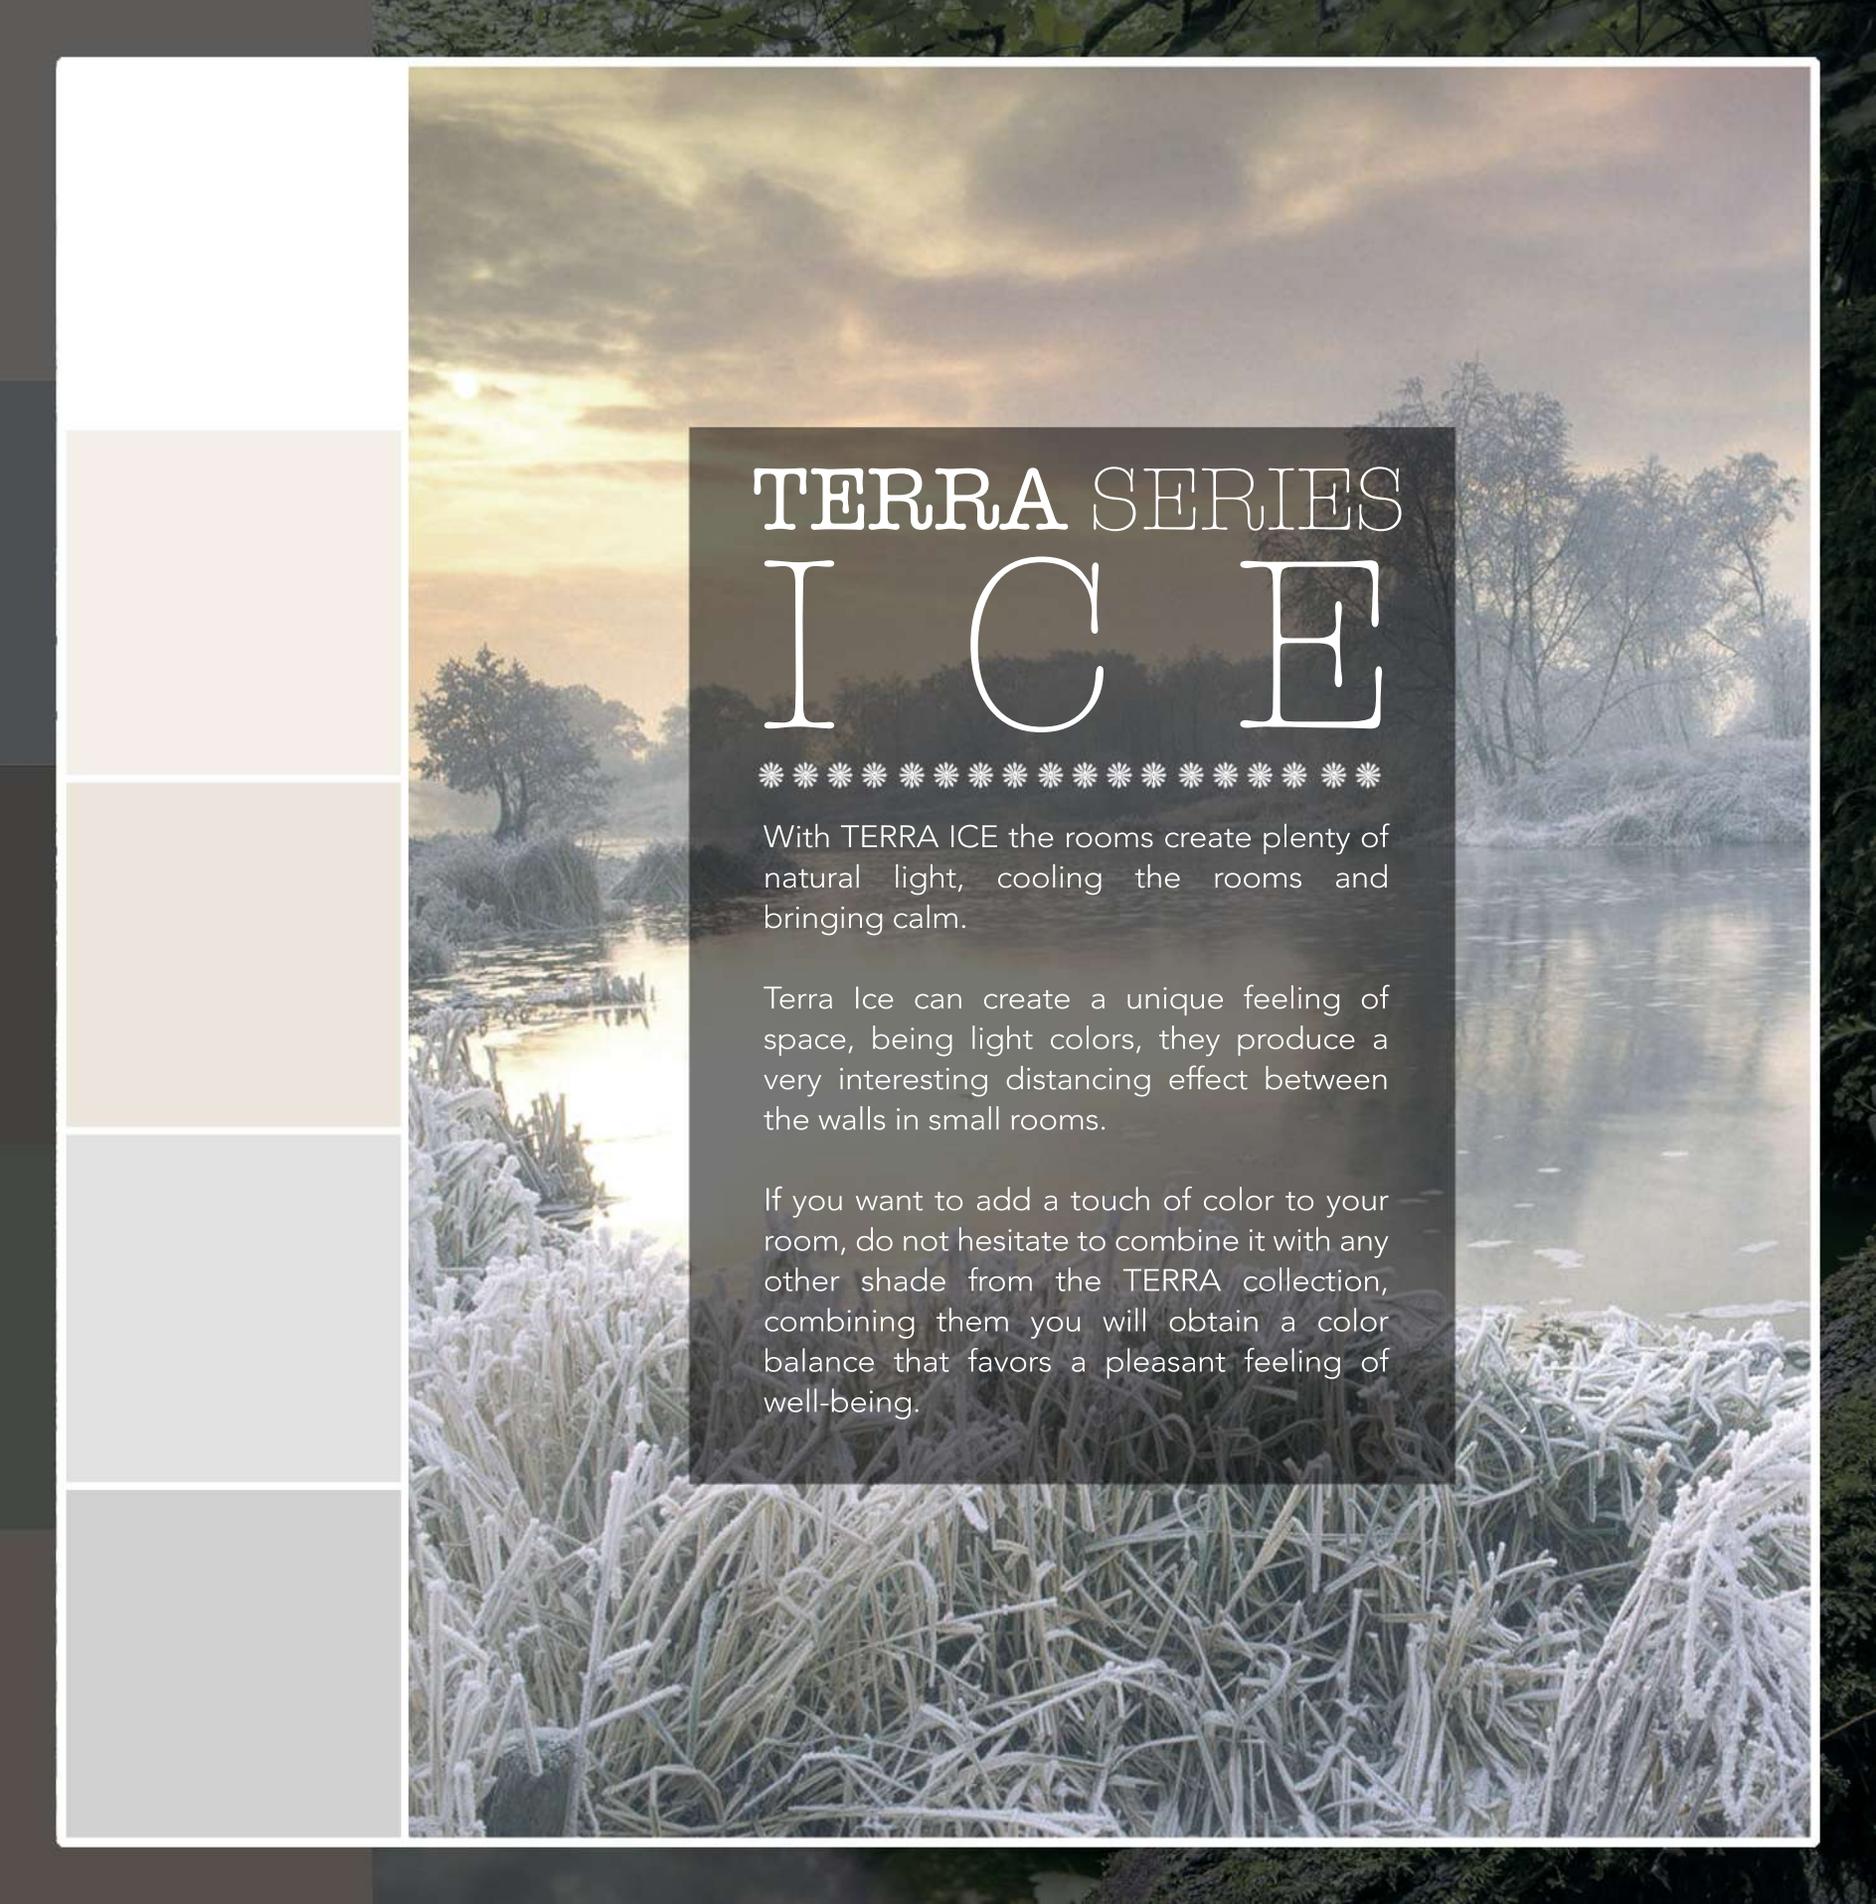

After several decades of minimalism, the current trend has taken a much more organic direction, betting on materials such as natural stone, both for floors and for bathroom and kitchen cladding.

The TERRA collection evokes the process of modeling and firing natural clay in the oven.

Presented in 30x60cm, with their imperfect shapes and incomparable luminosity, they are one of the most current trends in decoration and interior design.

A visual essence that arouses emotions and shows us the attractiveness of tones that evoke the earth.

TERRA by DG will bring the charm of the old craft to your interiors.

# TERRA SERIES I C E

With TERRA ICE the rooms create plenty of natural light, cooling the rooms and bringing calm.

Terra Ice can create a unique feeling of space, being light colors, they produce a very interesting distancing effect between the walls in small rooms.

If you want to add a touch of color to your room, do not hesitate to combine it with any other shade from the TERRA collection, combining them you will obtain a color balance that favors a pleasant feeling of well-being.

# TERRA SERIES MOSS

MOSS: A color that transmits calm in your home

Of the entire color palette to decorate the house, choosing moss tones is a success since it inevitably refers to nature.

Already in 2017, Pantone elevated MOSS to the color of the year and since then moss tones have not ceased to be present in the most current decorative trends. And among all of them, moss green is one of the most successful shades.

Why? In addition to its natural character, this color also refers to elegance thanks to that greyish/bluish tone that softens it.

Elegance and vitality, all in one.

# TERRA SERIES SMOKE

SMOKE: Neutrality

The smoky tone has become, over time, a color of elegance and style.

Thanks to the Smoke color and its perfect combination with others of the same tone, we can consider it the neutral color tone. Gray has many shades that are close to dark and light colors, which is why decorating a room with these colors, apart from being simple, is easy, because you just have to play with the scale. Make the lighter shades of gray the protagonists and contrast with the darker ones.
