

**pom'd'or**  
the bath world

*Heritage Collection*

*Heritage* Collection

*The mastery of the craft and attention to detail which have accompanied **pomd'or** throughout its history, make it a firm which is legendary for the creation of bathroom accessories.*

*Synonymous with refinement and luxury, each of the accessories is handcrafted, using materials of the highest quality. During their painstaking manufacturing process, the pieces undergo exhaustive tests and are checked one by one, with meticulous attention to detail, thus bestowing upon them the value of real gems.*

*In its quest to preserve tradition, **pomd'or** wanted to return to its essence and rediscover its inception, recovering its mastery and craftsmanship in glass work. Thus arises Heritage, luxurious and elegant pieces which achieve the highest excellence thanks to the perfect combination of artisan elaboration with the latest technology.*

*As the hand-made dresses are made by the best tailors and as the hand-made furniture are made by woodworkers, Heritage is inspired in the fashion and in the luxury interior design.*

*Its main protagonist, the glass is in its purest form. It dresses with transparent, black and seductive decorated, and it is finally secured using elaborate clasps in a chrome, nickel or sophisticated gold. Countless exclusive combinations that make this collection a leader in haute couture for the bathroom.*

*Its artisan elaboration and its luxury design, give soul to an exclusive and elegant collection, creating so authentic jewels.*

## MATERIALS AND FINISHES

### CRYSTAL

*Optical Crystal, with maximum transparency, hand made from a block and worked until the desired shape is obtained. 100% recyclable material.*

### PVD FINISH (Physical Vapour Deposition)

*The PVD is a high end and a technically advanced finish very much appreciated for the products that require to maintain the same appearance long. This coating is widely used in the jewel and watch making industries.*

*The PVD coating increases the superficial hardness of the pieces. It gets a higher resistance against the wearing, scratching and corrosion. Therefore, we can offer without a doubt for this finishing a life time warranty.*

*The PVD technological process consists of producing a metallic vapour that deposits electrically on conductive materials. It means that the material transform at atomic level. During the process, chemical vapour components are put on the surface, making a thin film which provides hardness, resistance and colour to the pieces.*

## LIFETIME WARRANTY

**POMD'OR** is committed to fascinate with its devotion for the details. We bet for quality materials and care elaboration processes as the essence of the products.

*One of our goals is to reach our customers expectations using materials that offer long lasting warranty and that pass the most rigorous quality controls. Regularly, the composition and pureness of all materials are checked, especially the metals and the coating electrolytic thickness (chrome, brass and nickel).*

*Heritage stands out due to scrupulous material assortment where opted for the reliability and integrity that the PVD coating and the optical crystal provide. It is a cutting-edge elaboration process. A laborious and meticulous assembling process made in house by high quality workers where each piece is custom made and presented as a real jewel.*
